

# Inspired by the Pineburr Supply List

## 412/512

---

### Instructor

Tara Faughnan

### Email

tarafau@comcast.net

### Experience Level

Confident Beginner

### Sewing Machine Required

Yes

### Course Overview

You will learn different techniques of fabric folding to create your own unique version of a Pineburr Quilt. We will explore the use of various shapes to create different types of layouts and patterns. You will come away with the knowledge of how to create this time honored style of quilt, which can be applied to everything from quilts to pillows to wall hangings.

### Fabric Selection

bring a variety of light medium and dark fabrics

20 (or more!) colors of solid or printed fabrics, prepped as below. Bring enough color choices to suit your creative style. Pick colors you love with a variety of light, medium and dark options.

### Required Supplies

Basic sewing supplies including:

Sewing machine

Rotary cutter

Acrylic ruler at least 12-18" long

Small cutting mat

Pins

Sewing machine needles

Scissors

Thread

Pencil

Class Specific Supplies:

\*\* Washable glue sticks (minimum 2)

Pen for marking fabric

\*\*30" x 30" pre-basted quilt sandwich-Use white or light colored fabric for front of sandwich, your choice color on back. you may bring a larger quilt sandwich if you like, but this is a good size to learn with.

OPTIONAL

\*\* Colored pencils if you would like to work out design options with color before you begin to sew the quilt

**\*\* Supplies not carried by The Stitchin' Post**

### Class Prep

200-300 or more prepped pieces

Please choose whether you would like to work with triangle shapes or rectangle shapes. Each shape creates an intrinsic layout. If you look at the 2 quilt examples, you will see that the triangles make a more horizontal diamond shape (Pineburr Quilt), and the rectangles make a more vertical diamond (Bazaar Quilt).

Whichever shape you decide to go with, prep a minimum of 10-20 of each color in your palette. I would suggest you come with a minimum of 200-300 pre-folded shapes to start with, but feel free to make more! This may sound like a lot, but they get used pretty quickly once you start the quilt (see below for how many pieces it takes to make a square foot of quilt).

### INSTRUCTIONS FOR MAKING TRIANGLES

One 4" by WOF (width of fabric) strip will give you approximately 10 folded triangles.

1. Cut a strip 4" by WOF
2. Sub cut strip into 4" squares.
3. Fold each square in half tip to tip and press.
4. Fold in half again and press.

### INSTRUCTIONS FOR MAKING RECTANGLES

One 2 ½" by WOF strip will give you approximately 10 folded rectangles.

1. Cut a strip 2½" by WOF
2. Fold lengthwise edges towards center of strip and iron. You can also use a 1¼" bias tape maker if that is easier for you.
3. Sub cut strip into 4" rectangles.
4. Fold in half (top to bottom) and press. Your finished rectangle should measure 1¼" wide by 2" long.

#### YARDAGE

These measurements are approximate.

#### PINEBURR

- There are 90 squares per 1 sq. foot of quilt.
- One yard of fabric will yield 80-90 squares.

#### BAZAAR

- There are 100 rectangles per 1 sq. foot of quilt
- One yard of fabric will yield 130-140 rectangles.
