

# Scandinavian Flower Garden

by Jen Carlton Bailly of bettycrockerass

A fun mod flower sampler quilt that can be combined into one quilt or separated and used in a single quilt. The colors of the flowers are just a jumping off point! Put your personal spin on each and use prints or a combo of prints and solids. The point of each of these is to have fun, try new combinations, and see where your imagination can take you. These flowers work great in prints and solids. This is a confident beginner class. Finished quilt size 91" by 91" and each flower measures about 27" by 30" so they are BIG!

## Kit Fee

\$30 for complete set of acrylic templates

\$5 paper pattern

## Sewing Supplies

- 28 mm rotary cutter
- Spinning Cutting Mat (optional but used frequently and recommended)
- 50 or 80 weight thread
- Fine pins (optional but used frequently and recommended)
- Sewline (or your favorite) glue stick
- Square up rulers in 3.5, 4.5, 5.5, and 6.5 (optional but used frequently and recommended)

## Fabric Requirements

- 1 yard for background (This is about what we will use in class, the total amount you need for the whole pattern is 3 ½" yards.)
- 6 FQ's for steams on leaves (I suggest a variety of colors and prints)
- Below is listed fabric for each flower. You may find one you really like and want to do just that one multiple times --Totally okay! This quilt can be modified to fit your style.
